Other Information

19. Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

As stated in an email from ACCJC Vice President Gohar Momjian on March 21, 2019, "For this year's report, on items requesting institution set standards (floor and aspirational) as well as the actual numbers, please provide the actual numbers as you've defined them in your institution set standard (ISS). For example, if your ISS was based on the number of certificates or degrees, then you would report the actual number of certificates or degrees; if your ISS was based on the unduplicated number of students who received a certificate/degree, then report the actual number of students. We do not expect that you would change your ISS definition that you've used in past reporting cycles, nor do we expect you to change your definitions."

Below are some notes regarding how our institution has defined and reported some of the data in the "Institution Set Standards for Student Achievement" section:

- Course Completion Rates: These rates are reported for the fall term of each year, and our ISS and stretch goal for this metric were derived from analysis of the fall course completion rates.**
- Certificates: For this metric we reported (and set our ISS and stretch goal) based on the unduplicated number of students who received a State Chancellor's Office-approved certificate of any number of units.**
- Degrees: For this metric we reported (and set our ISS and stretch goal) based on the unduplicated number of students who received a degree.**
- Transfer: For this metric we reported (and set our ISS and stretch goal) based on the total number of students who transferred to California State University (CSU) and University of California (UC) System schools.**

The data included in this report are certified as a complete and accurate representation of the reporting institution.
