CHILD DEVELOPMENT

MAJOR SHEETS

WHAT IS CHILD DEVELOPMENT?

Child Development refers to the study of children's bodies, emotions, social skills, and intelligence to allow students to plan and design services and learning environments for young children. This major is designed for students who wish to study children and the major family, cultural, peer, school, and neighborhood contexts in which they live. Courses cover parent-child relations, methods of parenting, influences on child development, and public policy issues. Students are provided with a strong background in the social and behavioral sciences related to child development and focus on the scientific study of children and how they develop.
