Academic Dishonesty: Students will be expected to follow the LACCD student code of conduct as it relates to student dishonesty (Board Rule 9803.28) as follows: “Violations of academic integrity of any type by a student provides grounds for disciplinary action by the instructor or college. Violations of Academic Integrity include, but are not limited to, the following actions: cheating on an exam, plagiarism, working together on an assignment, paper or project when the instructor has specifically stated students should not do so, submitting the same term paper to more than one instructor, or allowing another individual to assume one’s identity for the purpose of enhancing one’s grade. For more information on the Standards of Student Conduct refer to the college catalogue. Two major examples of academic dishonesty are **plagiarism and cheating:**

Plagiarism Defined: Plagiarism means using another person’s work, writing, words, ideas, research, graphics, programs, music, pictures, data, and/or other creative expression without giving the other person full credit. You must enclose another person’s words in quotation marks and cite your source(s), and you must give citations when using the ideas of another person, even if those ideas are paraphrased in your own words. Using words, ideas, computer code, or any work by someone else without giving proper credit is plagiarism. Any time you use information from a source, you must cite it. The same rules regarding plagiarism apply to resources found on the Internet as do to a printed source. This includes definitions found online on Wikipedia, materials from blogs, twitter, or other similar electronic resources.

Cheating Defined - unauthorized material used during an examination (including electronic devices), changing answers after work has been graded, taking an exam for another student, forging or altering attendance sheets or other documents in the course, looking at another student’s paper/scantron/essay/computer or exam with or without their approval is considered cheating. Any student caught cheating will receive a zero for the assignment/exam and referred to the Department chair and/or Student Services for further disciplinary action.
