Message from the College President....

It is my goal to ensure that the environment within which our students study and our faculty and staff work be as safe and secure as possible. We are committed to providing a learning environment that is secure and appropriate for higher education. If you, as a student, faculty member or staff member, have any concerns about your safety or the safety of classmates or staff, we encourage you to bring such concerns to my office or the campus Sheriff's department. It is important that we are aware of potentially dangerous situations, so that we can address them promptly and without incident.

We have a great team on campus. Our Sheriff's personnel are well-versed in campus policies and the law. They support a healthy and safe campus culture and provide us with important information that keeps us protected in any number of situations. Do not hesitate to call on them if you need any assistance or see something suspicious. It is their job to investigate it.

We hope that you find our campus to be a safe and secure place of study and work so that you can enjoy the educational journey.

Laurence B. Frank
President

SEXUAL ASSAULT POLICY

Los Angeles Trade Technical College will not tolerate sexual assault or sexual violence in any form, including acquaintance rape. If you have experienced sexual assault, you have the right to:

- Report the incident to the Campus Sheriff's Department and pursue criminal charges.
- Seek medical treatment as soon as possible, including the collection and preservation of evidence crucial to pursuing criminal action (an important step even if you are not immediately certain you want to pursue a criminal complaint).

- Report the matter to Healthy Advocacy Response Team (HART). LATTC's HART includes the following members: Vincent Jackson (Dean of Academic Affairs), Kaneesha Tarrant (Vice President of Student Services), Sergeant Diane Dodd (Law Enforcement, Los Angeles County Sheriff's Department), Deputy Lavonce Jeffrey (Law Enforcement, Los Angeles County Sheriff's Department), Dorothy Smith (Dean of Matriculation), Ashraf Hosseini (Counselor), and Sheila Tishler (Counselor).

Any student experiencing sexual assault or sexual violence who chooses to report the incident also helps to deter further assaults or violence. Others who are aware of such conduct may report it to ensure that survivors receive the services they need. Incidents can be reported to the Campus Sheriff's Department or the Healthy Advocacy Response Team. Reports should be made as soon as possible. Medical assistance should be sought to ensure preservation of physical evidence. Psychological counseling is available on campus from the LATTC Counseling Center.

INFORMATION REGARDING SEX OFFENDERS

Registered sex offenders must register with campus law enforcement within five working days of commencing enrollment or employment at LATTC. (Penal Code section 290.)

Information regarding registered sex offenders may be obtained at the California Department of Justice, Office of Attorney General's "Megan's Law" website at: <http://www.meganslaw.ca.gov/>

If you are doing a search on the Megan's Law site for sex offenders residing in the local area, LATTC's zip code is 90015.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

LATTC will immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health and safety of students and employees occurring on the campus. (Examples of such emergencies include outbreaks, extreme weather conditions, earthquakes, gas leaks, terrorist incidents, armed intruders, bomb threats, civil unrest, explosions, chemical or hazardous waste spills, etc.)

To report an emergency, please contact the Sheriff's Department at (213) 763-3600 or use one of the blue emergency phones located throughout the campus.

Notification Procedures

The College President or other designated administrator will make the determination of confirming whether an emergency exists, and when and how the emergency response plan will be executed. Notification is initiated by the Public Relations office.

LATTC will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of the responsible authorities, compromise efforts to assist a victim or to contain, respond, or otherwise mitigate the emergency.

The entire campus community will be notified when there is a potential that a very large segment of LATTC is threatened. The College President or other designated administrator will reassess the situation to determine whether additional notifications or updates need to be made.

In the event of a campus emergency, where it is necessary to notify students and staff of impending danger or critical information, LATTC has developed a protocol to engage as many students and staff as possible, in the shortest amount of time. It is important that all current technology and communication modes be used to widely distribute the information as quickly as possible. Coordination with the President's Office, the campus Sheriff's Office, district personnel, and Public Relations needs to be immediate and ongoing.

Below is our roll-out communication checklist for critical information:

- **Email blast.** An LATTC_ALL message is sent out to all faculty and staff.
- **Screen messages.** Aspen Hall, Juniper Hall, Magnolia Hall, and Mariposa Hall have programmed video screens on most floors. A message is developed and placed on those screens electronically and left as a stagnant item.
- **School Messenger.** Our phone software allows us to send a recorded message, an e-mail, phone message, and/or text message to those students and staff who have opted into the system with their phones.
- **IP Messenger.** Our phone system also has the capability of delivering an audio message using every phone on campus (these phones are located in every classroom and office on campus). The recorded message plays through the phone's audio system, and can be heard throughout an entire classroom. It also interrupts those people talking on the phone at the time the message is sent out. The same message can be programmed to repeat several times at various hours.
- **Website News post or Message.** The message should remain very visible to anyone visiting the campus website, and it should be updated periodically throughout the emergency or critical period. The website also allows for blog entries so others can ask questions and gather more information.
- **Messages on Facebook and Twitter.** Social media is engaged because many of our students ONLY receive information from these sources. Short messages are developed and placed without raising alarm. Again keeping people updated.
- **Flyers.** The message is placed on a one-sheet, and distributed to every mailbox on campus. This is especially important for adjunct faculty. Flyers are also distributed from places such as the Bridges to Success Center, Admissions & Records, Financial Aid and Counseling - places where students congregate.
- **Signage.** Placed in areas of high traffic and closed entrances or buildings. Other areas to be coordinated with the Sheriff's office and other campus departments.

Testing of Procedures

LATTC conducts both announced and unannounced tests of its emergency response and evacuation procedures. The Environmental Health and Safety Office and the campus Sheriff's Office will monitor all announced tests of its emergency response and evacuation procedures.

LATTC publicizes its emergency response and evacuation procedures by: 1. The posting of emergency procedures in each classroom. 2. The posting of emergency response and evacuation procedures on the LATTC website. 3. Providing emergency information in our School Catalog. 4. Providing other emergency notifications and procedures through Email blast or through School Messenger.

LATTC will document each test by recording a description of the test, the date the test was held, the time the test started and ended, and whether the test was announced or unannounced. Copies of test documentation are available from Physical Plant Office.
