## LATTC Named a 2025 Pathway Champion for Outstanding Transfer-Level Math Success

(Los Angeles, CA—October 28, 2025) Los Angeles Trade-Technical College (LATTC) is proud to have been selected as one of 40 California Community Colleges and California State Universities (CSUs) to receive the prestigious 2025 Pathway Champion award from the Campaign for College Opportunity. The honor was announced on October 23, 2025, at a ceremony in Los Angeles, and recognized LATTC's exceptional achievement in creating successful pathways to higher education for students in the Los Angeles region.

"We are deeply honored to be recognized as a Pathway Champion by the Campaign for College Opportunity," said Dr. Alfred McQuarters, President of LATTC. "This award reflects Los Angeles Trade-Technical College's unwavering commitment to student success and equity through stronger transfer pathways. By empowering our students to reach their academic goals and earn four-year degrees, we are not only transforming lives but also strengthening the economic and social fabric of Los Angeles and California."

LATTC earned distinction in the "Pathway Champion of Placement" category, specifically for Campuswide Growth in Transfer-Level Math Success. The college ranked among the top three California Community Colleges with the highest percentage point growth of students successfully completing transfer-level math courses between the 2022–23 and 2023–24 academic years.

"Our multiracial democracy and economy require us to support the growing majority of diverse students to complete college and earn a degree," said Jessie Ryan, President of the Campaign for College Opportunity. "At a time when students are increasingly questioning their place in higher education due to mounting attacks on their ability to thrive, we applaud the colleges that are courageously meeting the moment to implement the policies and practices we know transform student success and strengthen transfer in California."

Supporting community colleges is vital to California's future, as nearly two-thirds of the state's college students begin their higher education journey at these institutions. Prior to 2015, only 7 percent of transfer-intending students were able to transfer to a four-year university within two years. Thanks to implementation of ADT and equitable placement policies, current data shows 10 percent of community college students now transfer within two years and 19 percent after four years.

As a 2025 Pathway Champion award recipient, LATTC reaffirms its vital role in guiding students toward academic success and meaningful career pathways that shape brighter futures.

#### **About LATTC**

Located just south of downtown Los Angeles, Los Angeles Trade-Technical College (LATTC) is one of nine public community colleges in the Los Angeles Community College District (LACCD). Established in 1925, the college offers more than 80 career-technical programs that move students into careers in two years or less. In addition to an unmatched selection of quality career programs, LATTC prepares students for transfer, with 18 CSU transfer degrees, and transfer guarantee programs with the University of California and local private and independent colleges and universities.
