Adding an Online or Hybrid Class and Contact Instructors

The process to add an online class is the same as adding a class that meets on campus. Go through the normal registration process and just select the class number for the online class. In the event the class is full, get on the waiting list.

In the event you are trying to add a hybrid class, attend the first class session on campus to be eligible to be added.

Once an online class begins, you will need to contact the instructor to get permission to add. Use the following email addresses to contact the instructors listed above.
