

Climate Change Studies, Social Science

Certificate of Achievement
CSU Transferable

Job Ready

This interdisciplinary program is designed to provide students with the background necessary to understand the impacts that climate change will have on their personal lives and careers, their local communities, our global society, and local to global ecosystems and environments. The certificate is stackable with the Climate Change Studies - Natural Science Emphasis Certificate of Achievement and can be built up into the Associate of Arts in Climate Change and Environmental Studies degree.
