

GAME PROGRAMMING CERTIFICATE

Game Programmers work with software to make a game work. They implement mechanics from designers and assets from artists and sound designers. Develop these skills with the Essentials of Video Game Programming Certificate!

- Learn about C#, C++, Unreal Blueprints, JavaScript, debugging, and good code practices for games
- Brainstorm, prototype, test, and refine your own video games
- Work with Unity, Unreal, Perforce's P4V, and other industry-standard software
- Complete projects alone and as part of a team—crucial experience for a game development resume
- Meet students and faculty passionate about video game development to start your network

Class	Name	Units
CS 173	C# Programming for Unity	3
GAD 101	Intro to Game Design	3
Film PRD 201	Intro to Unreal Engine	3
CS 116	C++ Programming	3
CS 175	Unreal Engine Programming	3
GAD 210-1	Game Production Studio 1	2
